

EPPA Update **17-01** **Filing Extension for Actuarial Valuation Reports**

Issued September, 2017

In accordance with Section 5 of the [Employment Pension Plans Act](#), the Superintendent of Pensions advises that the deadline to file actuarial valuation reports as at December 31, 2016 has been extended six months to March 31, 2018 for all pension plans except Collectively Bargained Multi-Employer Plans. For actuarial valuation reports due to be filed between September 27, 2017 to December 31, 2017 a six month extension is also granted.

This extension will allow the Superintendent's office to undertake research, analysis and stakeholder engagement in the development of options regarding private sector pension plan funding relief.

Please note that contributions must continue in the amounts specified under the prior actuarial valuation until the new actuarial valuation report is filed.

If you have already filed an actuarial valuation report as at December 31, 2016, please contact the Superintendent's office to discuss options that will be available.
